

(1) Create a publicly accessible database of existing reports, studies, and restoration plans

(2) Create an electronic communication network accessible to all interested parties (listserver)

(3) Convene water quality specialists to share data and identify data needs including gauges and monitoring

(4) Establish a Science Review Board

(5) GET "AUTHORITY" ESTABLISHED SO WE
CAN TAKE ACTION. WE GIVE AUTHORITY
SO WE CAN HAVE AUTHORITY! NAME THE
AGENCIES THAT SEEK WHAT WE WANT.
